

#GSAOPENDAYS  
November 8 & 9 9 am - 6 pm

## GSA Open Days 2019

### *Accuracy Matters – Look around you!*

Satellites might be an invisible infrastructure spinning many thousand kilometres above our heads, but the services they deliver are more than visible. Look around you! Satellite navigation is used in much of our everyday life and, for all of the services that use satellite navigation, accuracy is of the essence.

## Programme

### **Friday, 8th November: School Day**

Every hour, beginning at 9.00, seminars on “*Satellite navigation + Europe = GSA*” will be delivered.

There will be no seminars for the general public on Friday however you're invited to join us and take part in other activities.

### **Saturday, 9th November**

**10.00** *GNSS and the GSA in a Nutshell (CZ)*

**11.00** *Galileo & EGNOS (EN)*

**12.00** *European Satellites: Invisible infrastructures, Visible Services (CZ)*

**13.00** *Security and Accreditation (EN + CZ)*

**14.00** *11 FAQs on Galileo (EN + CZ)*

**15.00** *GNSS and the GSA in a Nutshell (CZ)*

**16.00** *European Satellites: Invisible infrastructures, Visible Services (CZ)*

**17.00** *GNSS and the GSA in a Nutshell (EN)*

GSA Open Days will feature a range of activities designed to help visitors of all ages learn more about Space, the European Union and satellite navigation.

Be a pilot and land an airbus A350 using EGNOS or discover a satellite mock-up. Experience a live rescue in the snow-capped Alps with the help of Galileo. If you're afraid of heights you can always decrypt secret messages or take part in our various workshops running throughout the day.
