

The European GNSS Agency (GSA) provides university students and graduates with a unique and first-hand experience in the working environment of the European Navigation Satellite Systems, and of the EU institutions in general.

“Galileo Services Department Traineeship”

1. Description of the traineeship

The GSA announces a traineeship opportunity for European students and graduates. The trainee will support the Galileo service engineering activities in the Galileo Services Department of the Agency. The tasks will relate to the monitoring of the Galileo performance and to the management of technical requirements associated to the current and new services.

The traineeship will take place at the GSA headquarters at Janovského 438/2, Prague 7, Czech Republic and shall last preferably from **1st April 2019 to 30th September 2019**. The traineeship contract will be concluded for 6 months, which may be extended for further 3 months (maximum twice) or further 6 months (maximum once). The maximum duration of the contract is therefore 12 months. The GSA reserves the right, however, to conclude individual contracts according to which the traineeship start/end will deviate from the above dates specified.

The trainee will be expected to carry out under supervision the following duties:

- Contribute to the assessment of the Galileo performance of current services and their proposed updates, and the elaboration of the monthly and quarterly performance reports
- Contribute to the management of the technical baseline for the Galileo services, regarding the improvement of the configuration control tools and processes
- Support the team activities, notably for the preparation of meetings with stakeholders and the elaboration of technical documentation

2. Admission and selection criteria

The traineeship is open to applicants who have not previously undertaken a traineeship at the GSA and who meet the following requirements:

A. Admission criteria

- Nationality of any Member State of the European Union or Norway
- A recognised post-secondary or higher education degree (undergraduate or university education or equivalent), evidencing completion of a full cycle of study, or in the case of candidates who are at the end of their studies, an official attestation from their school or university stating the marks obtained
- Have an initial experience or specific expertise that is found of interest by of the Agency in one of the areas of work, obtained either through specialisation as part of the applicant’s studies, a dissertation or other research project conducted as part of their studies or through professional experience or a previous traineeship or otherwise
- Have a thorough knowledge of one official language of the European Union and a satisfactory knowledge of another language of the European Union; one of these languages must be the working language of the Agency (English)
- A clean criminal record

B. Selection criteria

- Education or work experience in the area of computer systems, in particular addressing Linux, shell/python/perl programming, graphical generation tools (e.g. gnuplot), databases
- Knowledge (by training or experience) of the principles of systems engineering
- Knowledge of satellite navigation systems, in particular data processing is desirable
- Experience of multicultural environments, ideally through previous work experience or study abroad
- Effective communication skills, including the ability to summarise information
- Structured approach in solving problems
- Good organisation skills
- Motivation

3. Application Procedure

Candidates must submit their application electronically. The application must be composed of a duly signed **CV in Europass format**¹ (in English) **and a motivation letter** (maximum one page).

Candidates are requested to send their application in English, the working language of the GSA.

Applications must be sent to jobs@gsa.europa.eu and received by **21st March 2019 at 11:59 am (Prague Local Time)** (extended from the initial deadline 7th March 2019) and the subject title of the email should include **“SURNAME Name Galileo Traineeship”**.

Only complete applications containing the above mentioned documents and sent within the deadline will be taken into consideration.

Candidates are reminded not to wait until the final days before the closing date of applications' submissions. The Agency cannot be held responsible for any last-minute malfunction due to any overflow of the mailbox.

GSA applies equal opportunities and accepts applications without distinction on the grounds of age, race, political, philosophical or religious conviction, sex or sexual orientation and regardless of disabilities, marital status or family situation.

4. Selection procedure

The department's evaluators will assess the admissible applications and select those best matching the selection criteria required for this traineeship. The best admissible candidates may be invited for a phone/video interview which may include other appropriate testing.

Engagement for a traineeship will be decided by the Agency's Executive Director on the basis of a list of suitable candidates proposed by the evaluators. The established list may be used for other similar traineeships depending on the Agency's needs.

All applicants will be informed about the outcome of their application. If an application is unsuccessful, candidates may re-apply to future vacancies for which they satisfy the criteria.

¹ <http://europass.cedefop.europa.eu/en/documents/curriculum-vitae/templates-instructions>.

Applicants have the right to file a complaint to the European Ombudsman² or send an application to the General Court of the European Union³, should they consider they have been adversely affected by a particular decision.

If at any stage during the procedure it is discovered that any of the information a candidate has provided is incorrect, the candidate in question will be disqualified.

5. Conditions of the traineeship

Trainees receive a monthly grant for full-time traineeship of €1,000.00⁴. If the traineeship is part-time, the grant will be proportionate.

Trainees may also be entitled to the reimbursement of their travel expenses from/to their place of origin.

Trainees shall be responsible for organising their own sickness insurance against health risks and their own accident insurance.

Before the start of the traineeship, the candidate will be required to provide the following documents:

- proof of nationality
- diplomas or academic qualifications needed to prove s/he satisfies the admission criteria
- an excerpt from police records
- a medical certificate confirming that s/he is fit for work and free of any contagious diseases
- documents showing that the trainee has public or private cover for accident insurance and sickness insurance against health risks for the entire duration of the traineeship period
- a statement indicating whether the trainee is in receipt of a grant or other subsistence allowance from another source and if so, the amount of these grants or allowances

For further information on rights and obligation related to traineeships, please refer to the *Decision of The Executive Director on the Rules governing the Traineeship Scheme of the European GNSS Agency*⁵.

6. Data Protection

The purpose of processing of the data submitted by candidates is to manage each application in view of selection and recruitment as a trainee at the GSA. The personal information requested from applicants will be processed in line with Regulation (EU) N° 2018/1725⁶ of the European Parliament and of the Council of 23 October 2018 on the protection of natural persons with regard to the processing of personal data by the Union institutions, bodies, officers and agencies and on the free movement of such data (repealing Regulation (EC) N° 45/2001 and Decision N° 1247/2002/EC).
