The GSA Security Department proactively contributes to the fulfilment of GSA missions by providing the security expertise in order to (1) achieve successful security accreditation of the systems, (2) secure programmes’ implementation and exploitation and (3) ensure a wide, secure and sustainable use of the Public Regulated Service (PRS).

The following high level objectives are set for the Security Department:

- achieve and safeguard the high level security objectives of the Galileo and EGNOS programmes
- provide independent, balanced, timely and comprehensive security risks analysis to support the decisions of the Security Accreditation Board (SAB)
- manage security processes, monitor and enforce programmes’ security requirements

- manages frequencies and ensure compatibility and interoperability of the systems
- inculcate a security culture within the GSA and continuously improve the image of the GSA, as a trustable and reliable security actor

Within the Security Department, the Security Accreditation Team provides independent, balanced, timely and comprehensive security risks analysis to support the decisions of the Security Accreditation Board. The SAB is an autonomous body established within the Agency pursuant to the applicable legislation, which takes all security accreditation decisions related to the European GNSS systems. These decisions entail in particular:

- Approval To Launches (ATL)
- Authorisation To Operate (ATO) the systems in their various configurations and different services
- Site Authorisations to Operate (SATO)
- Authorisation of bodies to develop and manufacture PRS receivers and security modules

According to Article 11(12), the SAB has set up special subordinate bodies, acting on its instructions, to deal with specific issues, as follows:

- The European GNSS Security Accreditation Panel, a panel to conduct security analysis, reviews and tests to produce the relevant risk reports in order to assist it in preparing its decisions. The Panel acts as a technical body to assist the European GNSS Security Accreditation Authority in all aspects related to the accreditation of the Galileo system
- A Crypto Distribution Authority (CDA) to assist the Security Accreditation Board in particular with regard to assessing risk pertaining to Communications Security (COMSEC) matters in the GNSS Programmes. The SAB CDA is chaired by GSA (SAB CDA Co-ordinator) and composed by representatives from volunteering Member States
- The Flight Key Cell (FKC) is a subordinate body of the SAB CDA formed of COMSEC experts of the Member States, established by the SAB in order to support the specification of COMSEC procedures with regard to the security of classified Flight Keys and operations used in GNSS Programme Launch Campaigns. It is also responsible for the provision of assurance that the procedures are implemented correctly. FKC currently achieves this through the execution of these procedures by the FKC Members, involving direct participation to the GNSS Programme Launch Campaigns in a COMSEC role.

4. SELECTION PROCEDURE

The selection procedure includes the following steps:

- After registration, each application will be checked in order to verify that it meets the eligibility criteria.
- All eligible applications will be evaluated by a Selection Board based on the selection criteria defined in this vacancy notice.
- The candidates whose applications rank among the best-qualified in accordance with the selection criteria, may be contacted in order to verify (through an oral or written test) their studies, professional experience and/or other knowledge and competencies as indicated in their application form. This contact would be an intermediate step in pre-selecting the most suitable candidates. It does not however entitle candidates to be invited for an interview. The best-qualified candidates, those who obtained the highest number of points within the evaluation, will be short-listed for an interview. The minimum threshold is 65% of the total points.
- During the interview, the Selection Board will examine each candidate’s profile and will assess their relevancy for this post. In order to support the evaluation via interview, shortlisted candidates will be required to undergo a computer-based written test relevant to the job content (the minimum threshold for this test is 50% of the total points allocated for it) and to complete part of the process in their second EU language. All candidates short-listed for an interview may also be requested to complete an online Business Attitude Questionnaire.
- Candidates will be requested to bring with them on the day of the interview photocopies of all the supporting documents for their educational qualifications and employment necessary to prove that they meet the eligibility criteria. GSA has the right to disqualify applicants who fails to submit all the required documents.
- As a result of the interviews, the Selection Board will recommend the most suitable candidate(s) for this post to be placed on a reserve list. The minimum threshold to be placed on the reserve list is 65% of the total points.
- The best-ranked candidates will be invited for an interview with the Appointing Authority. The interview will focus on the overall suitability of the candidate for the post covering motivation, relevant technical and behavioural competencies, in line with the selection criteria established in the vacancy notice.
- The Appointing Authority will ultimately decide on the successful candidate to be placed on the reserve list and to be appointed to the post.
- The established reserve list may also be used for recruitment of similar posts depending on the Agency’s needs. Where a similar post becomes available, the Appointing Authority may select applicants from the list according to their profile in relation to the specific requirements of the post to be filled. However, inclusion on the reserve list does not guarantee recruitment.
- If, at any stage of the procedure, it is established that any of the information the candidate provided is incorrect, the candidate in question will be disqualified.

| Indicative date for the interview and written test\(^1\) | July/August 2018 |

Candidates are strictly forbidden to make any contact with the Selection Board members, either directly or indirectly. Any infringement of this rule will lead to disqualification from the selection procedure.

\(^{1}\) The date might be modified depending on the availability of the Selection Board members.
