

Procurement procedure: GSA/OP/02/17 ‘Knowledge Services for the European GNSS Agency Security Department (Outreach)’

GSA internal reference: 233899

Clarification Note #1

Question #1: Annex I.1 to the invitation to tender “template identification sheet of the tenderer” requires tenderers to fill in a “reference of the NDU relating to this procurement procedure” and identify contact persons and legal representatives regarding this NDU. Could you please specify if (i) the tender addresses a specific NDU template and where it can be retrieved, (ii) the reference number of the NDU should be included in the table, (iii) the NDU has to be signed before the submission of the tender, (iv) the NDU will be signed in case of award of the FWC.

Answer: Annex I.1 is a standardised document and the abovementioned part generally refers to any non-disclosure agreement/undertaking (NDA/NDU) signed during a given procurement procedure. As signature of an NDU is not foreseen for the present procurement procedure, this section of Annex I.1 is not applicable; in view of this, a respective comment should be inserted (i.e. “N/A”).
