

Procurement procedure: Knowledge Services for the European GNSS Agency Security Department 'Outreach'

Reference: GSA/OP/02/17

GSA internal reference: 233374

Corrigendum #1

In Section 2.3.3 of the tender specifications:

For:

“After award of the contract, the GSA reserves the right to launch an exceptional negotiated procedure for similar services with the same contractor in case of need, as foreseen in Art. 134(1)(e) RAP.”

Read:

“After award of the contract, the GSA reserves the right to launch an exceptional negotiated procedure for similar services with the same contractor, as foreseen in Art. 134(1)(e) RAP. Such a procedure would be launched if, during the execution of the framework contract, the GSA finds out that a higher amount of public-domain information and/or sources pertinent to GNSS Security matters is available which would require the GSA to request additional knowledge services, the value of which would go beyond the maximum value of the framework contract. The value of such additional services can be up to 50 % of the maximum amount of the framework contract.”
