

CLARIFICATION NOTE #3

WFID: 246033

**Relating to Procurement Procedure GSA/NP/37/18 – “Aviation DFMC SBAS Receiver Prototype
(second source)”**

Question #4: If an entity in EU intends to submit a bid but in order to deliver would need to use resource within affiliates located outside EU - are the affiliates seen as a subcontractor or is the EU entity seen to be submitting on behalf of the group?

Answer: Should the tenderer (the tenderer could be a sole tenderer or a consortium - in the latter case the consortium partners will constitute the tenderer – see section 2.8.6 of the tender specifications) use resources other than its own, i.e. from entities other than the tenderer such entities, regardless whether they are affiliates or not, are treated as subcontractors which are subject to Section 2.8.5. of the tender specifications.
